STRATIGRAPHIC NOTES/DOUBTS (include any comments on methods, contamination, excavation conditions, or anything else that seems relevant)

I thought this context was right above bedrock, but apparently it goes a little deeper than expected; ~~above~~ it is above bedrock @ least nonetheless

the shape may be related to a wall trench but it's hard to tell	DATE 2.VIII.05	INITIALS Jm
---	-------------------	----------------

* good for dating \approx 1/2 of the material from the preliminary datable ceramics are IX-X centuries from

SPECIAL FINDS (continued)
