STATE OF PRESERVATION GOOD						
DESCRIPTION Steps of a staircase in the room 25. It is oriented to NW. It is consisted of two steps. The upper step has a hole for the door-axle. This step is 40x60 cm, 22 cm high (SF 901). The lower step is 28x88 cm, 18 cm high. The staircase abuts to the wall PA 179. This structure is later than the room 25 and corresponds to an empty space between the walls PA 156 and PA 179. The later origin of the staircase is demonstrated also by a second pavement above the original one, which preserved only near the staircase.
