To Whom It May Concern

RE: Donation of specimens of Richardson's ground squirrels to Museum of Southwestern Biology, University of New Mexico, Albuquerque, NM, USA

I hereby confirm that Jocie Colella, Aaron Cde Baca, and Dianna Krejsa from the University of New Mexico (UNM) are entering Canada to obtain a set of specimens of Richardson's ground squirrels (*Urocitellus richardsonii*) that I am donating to the Museum of Southwestern Biology, Albuquerque, for research purposes. This donation is by agreement between myself and Bryan McLean, UNM, for his ongoing research on the evolution and ecology of ground squirrels. No monetary value is attached to the specimens.

I also confirm that the crew from UNM will receive no remuneration from Canadian sources while in Canada, mid-July through early-August, 2016, during which time the research specimens will be transferred to them.

If further information is required, I can be contacted via the methods given below.
