MATERIAL (As appropriate, state catalog numbers, name, preparation, locality, collector, etc.)

Note: Please monitor the fluid level in the jar and top it off with fresh 70% ethanol if necessary.

Ethanol is flammable and hazardous: comply with the building fire code.

Handle the dry snake specimen with special care: the rattle is very fragile and the sandy base is brittle.

Handle mammal specimens with care, and please monitor the galleries and keep the specimens away from insect pests
