Sacramento, CA 95832

Dear Dr. Gaimari,

Enclosed are 96 specimens of Lauxanioidea from the collection of the Kenai National Wildlife Refuge (coden: KNWR). A list of the specimens included is provided below. Please give little weight to the names I have assigned. I do not pretend to know much about Lauxanioidea. I have merely sorted them to the best of my ability.

Thank you for your willingness to look at this material. You are welcome to retain some specimens if they would be helpful for your work, but please return some representative specimens as we are trying to build our collection and the University of Alaska Museum collection in Fairbanks (coden: UAM).

Sincerely,

A handwritten signature in black ink that reads "MATTHEW BOWSER". The signature is written in a cursive, slightly slanted style.
