Dear Garret,

I have looked at the specimens you lent me recently. I also entered these data into Arctos under the KNWR:Ento collection, but I want to assure you that this is in no way a claim of ownership. I have added determination/2D barcode labels to all of the specimens. The specimen records are available via the URI below.

http://arctos.database.museum/saved/KNWR-2014_02-Dubois-Ento

I will be coming to Anchorage tomorrow to the Forest Service building, so I will be returning most of the 34 specimens that I borrowed. I am returning all of the 31 cixiids, which were all *Cixius meridionalis*; I am retaining the 3 achilids for now.

Thank you for loaning these specimens to me.

Sincerely,

Matt
