Harriet

I met Steve and ~~Harry~~ at the Forest Service office, where I looked through their collection for cixiids and achilids.

I borrowed ~~21~~<sup>21</sup> specimens, 18 cixiids and 3 achilids. All were from Silvertip Creek.

I found more in another drawer.

Achilidae : : 3

Cixiidae ☒ ☒ ☒ 31

34 total specimens  
borrowed.

I also checked through Zogas' field notebooks. I could not find coordinates for the "Silvertip Ck." locality.
