

SITE CH 05	YEAR 2005	ROOM # or AREA NAME Complex 2 - Room 31	CONTEXT NUMBER 614
TYPE (positive, negative, wall) Wall	DEFINITION (cut in floor of X, fill of pit Y, north wall of room Z, etc.) Remains of wall which is almost in line with 398		
DESCRIPTION (include consistency, color, composition, inclusions, dimensions; for cuts, also include shape and orientation) Wall placed between the W and E wing. It is <del>constructed</del> <sup>built</sup> by a double course of rubble stones on north and a squared block on south (0,95 x 0,40 x 0,30m) aligned in SW/NE direction as wall 398, but projecting from it 0,40m towards W. The squared block is abutted to 398, and it is not connected with north part. Between them there is a hiatus, in this we have intercepted the bedrock on which the squared block seems to lay.
