

TYPE (positive, negative, wall) <i>positive</i>		DEFINITION (cut in floor of X, fill of pit Y, north wall of room Z, etc.) <i>Soil in floor of church in which infant burials placed</i>	
DESCRIPTION (include consistency, color, composition, inclusions, dimensions; for cuts, also include shape and orientation) <i>disturbed grayish-brown soil containing rocks, tile fragments; baked hard by exposure to weather after 2002, so compact but friable; no good edges for extent, so if filling a cut would have been very shallow - infant bones exposed on surface</i>
