Please do as little damage as possible  
when removing brain tissue. This  
specimen will be put into the MSB  
collection.

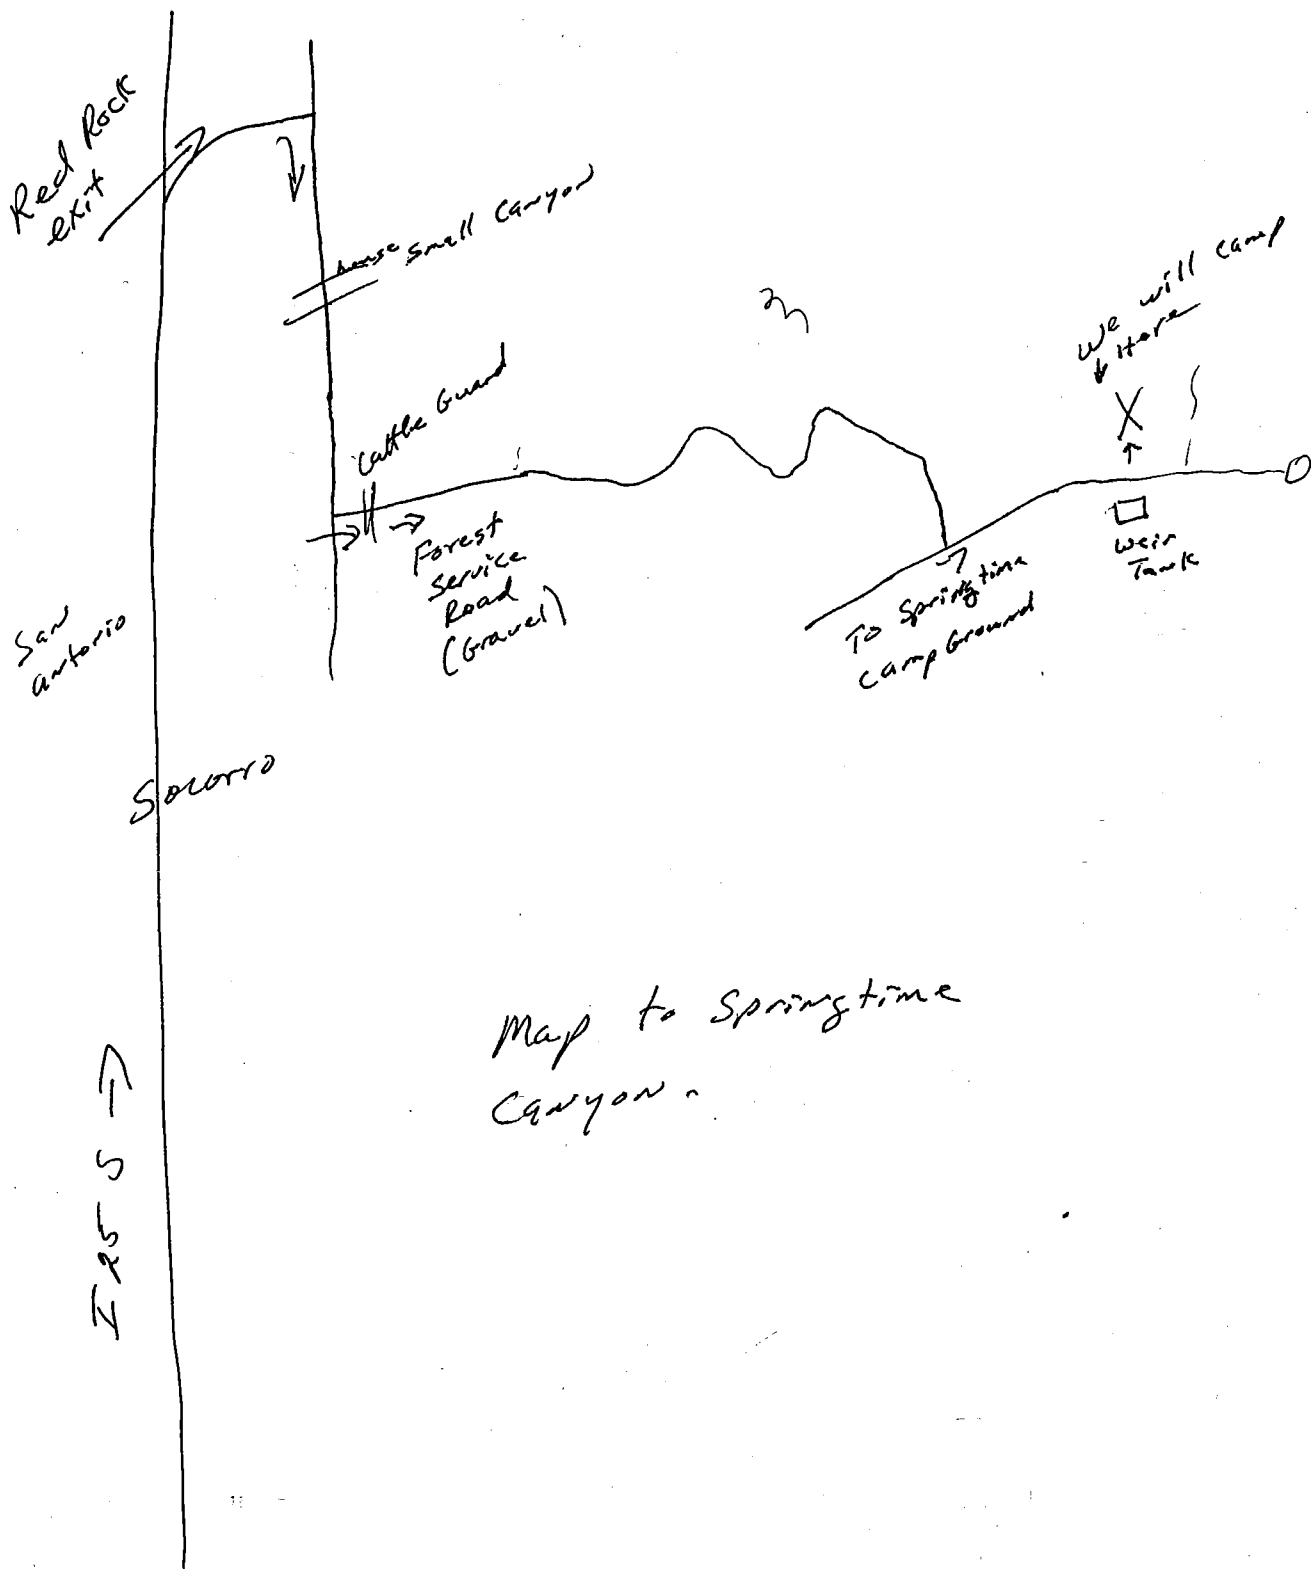

Many thanks,  
Scott Allenback

Straight from Costa Rica

Roberto Gutierrez's coffee plantation where the Reithrodontomys was captured was from the following geographic names

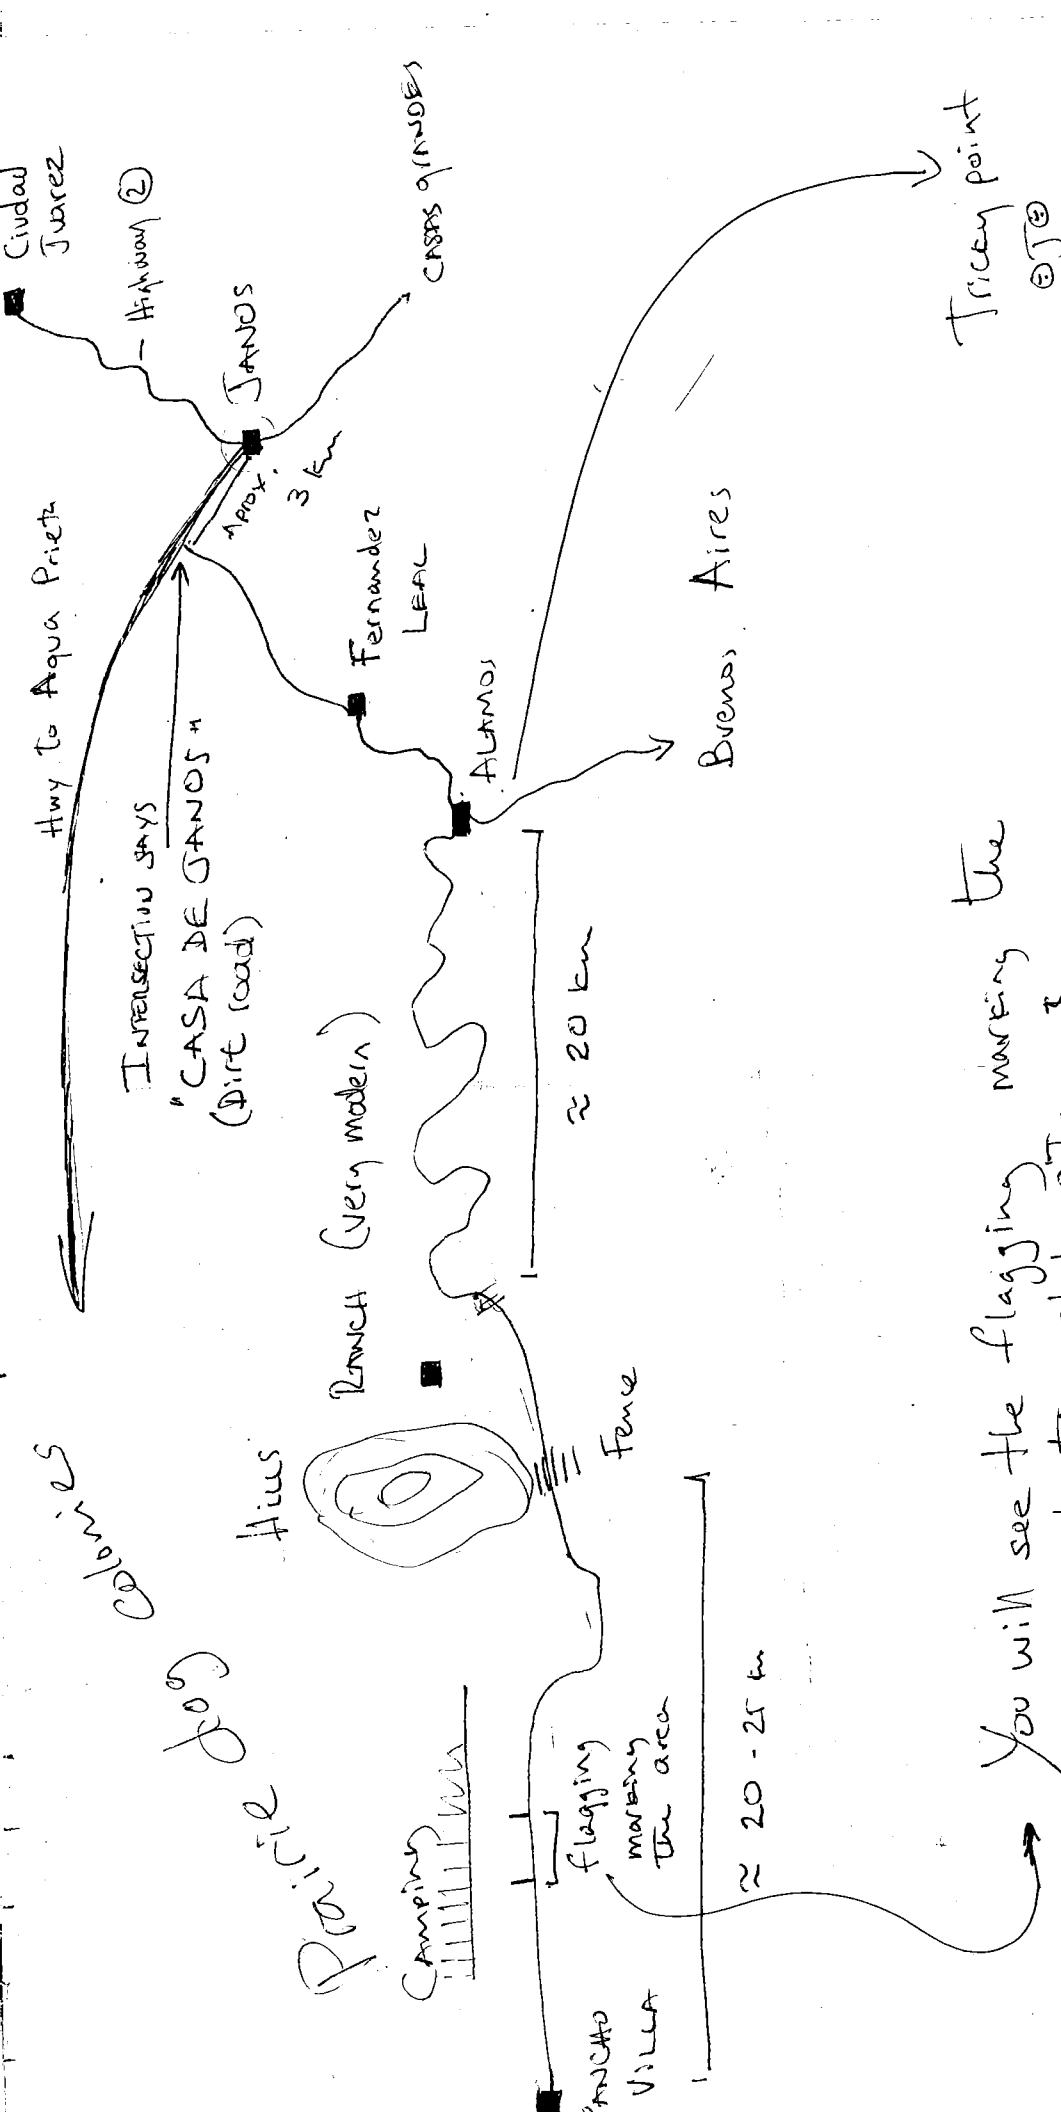

1. old farm name - La Quesera
2. on the Rio Segundo
3. hill called Rufina
4. little creek near plantation called Paja de agua
5. town nearby, St. Cristobal
6. other hill, Cabezon
7. another hill, La Muralla
8. new farm name, Gube

the locality was Heredia Prov., 2 km NE Getzemani, on the Rio Segundo.

Map to Springtime Canyon.
